**4. Tourstop: Romania (ROM)  
on 13<sup>rd</sup> – 15<sup>th</sup> of October 2017**

## DCL GRAND PRIX SALINA TURDA - RACE IN THE CAVES

For the second year in a row, the DCL takes its Drone Racing series to the depth of the Salina Turda salt mine in Romania. "Race in the Caves" will bring the pilots to the brim of their abilities. A unique location with a spectacular track awaits spectators, teams and pilots.

### Romania (ROM) - Salina Turda

Until 1932 the caves of Salina Turda was mainly used as a salt mine. Today the high-speed drones of the Drone Champions League fly at top speed of up to 140 km / h through the cave. A highlight of the track is the 40 meters level difference in the height of the two plateaus of the cave. Like last year, the Grand Prix Salina Turda is the most popular track for teams and pilots in the race calendar 2017.

### The last points of the season

4 races are still ahead in the 2017 race calendar. The first three teams are close to each other - every point counts! In Brussels, NEXXBlades Racing was able to secure a double victory and is the current leader in the DCL standing. The Swiss team FPVRacing.ch and the Czech team Rotorama only miss a few points to gain the lead - tension guaranteed!

### New racing format

The new racing format focuses on the performance of the entire team.

Since the start of the new season, the races are easier to follow, as every team now has their own team colors. Strategy and tactics are now among the new challenges of the teams, which can create more tension and develop rivalries.

### DCL Racing Calendar 2017

After the tour stop in the caves of Salina Turda the Grand Final will be held in the German capital Berlin (3th of December). In the last 4 races of the racing calendar 2017 everything can change! Who will be the winner of the season? It remains exciting until the last race!

### DCL Live

The race in Romania is broadcasted via live stream on the DCL YouTube channel.

Thanks to support from international TV stations, we already reach over 100 Countries.
