«X OVER RIDE» in Zell am See (AUT)
from 23. – 25. of March 2018
3* Freeride World Qualifier

Save the date! From the 23rd to the 25th of March 2018 the legendary X OVER RIDE in the region of Zell am See-Kaprun awaits the final of the powder season. The best opportunity for all riders to celebrate the past winter and to secure 1,100 points for their freeride world qualifier-ranking.

The Kitzsteinhorn calls, and the freeride heroes come: On March 24th, 2018, the legendary X OVER RIDE goes into the next round. For the seventh time the 3-star-contest will take place under the umbrella of the freeride world qualifier tour and let the participating riders focus on the challenging contest face called 'Lakarschneid'.

The X OVER RIDE distributes 1,100 qualifier points, which can be decisive on a starting spot in the freeride world tour at the end of the season. To win these weighty counters, it takes a good deal of creativity, technique and style among a high-class of participants.

Every year, around 70 riders from twelve different nations are attracted by the 3-star-qualifier on the Kitzsteinhorn. But it is not only the backcountry, powder and contest itself that makes a good freeride weekend in Zell am See-Kaprun, 'It's both, the face and the spirit all around - all riders are there, everyone is happy for each other, and the after party is legendary,' states the local X OVER RIDE double champion, Stefanie Noppinger.

From the spirit of the fans and the community, the riders can convince themselves after finishing their run directly in the public area at the Langwiedboden. There, the audience is very close when the riders drop in the face, fight for their turns and the perfect line on the contest face 'Lakarschneid'. The event village offers the opportunity to party, chill and cheer. Of course, the famous notorious after-contest party may not be missing in 2018.

Even without skies, the public area is directly accessible with the Gletscherjet 1. The contest starts on March 24th, 2018 at 9.30 AM at the Face 'Lakarschneid' (2,652 m).
